

**Fitment Instructions****Model: Nissan Navara D40****Underbody Protection Plate****Part Number: IUP007R****Radiator****Years: 2005 -****Engine type: 2.5 dCi, 2.5 dCi (4WD)****APPLICATION:**

Protection of engine bay and transmission elements from damage.
Protection of engine bay and transmission elements from dust and water.

INSTALLATION:

This protection plate has been designed for installation to the intended application only. It should be mounted according to these installation instructions by an experienced Ironman 4x4 dealer or certified fitter. The plate is fixed to original vehicle mountings located on the vehicle's body load-bearing elements. Upon successful installation the plate should not interfere with any other parts or components.

INSTALLATION MANUAL:

1. Remove OE protection plate.
2. Remove the towing hook.
3. Install both side wings "1" to OE points on the chassis. Don't tighten the bolts at this stage.
4. Position the radiator plate with the side wings to the inside.
5. Install the front of the plate to the radiator support OE points.
6. Mount the rear of the plate to the front crossmember OE points using the supplied hardware.
7. Bolt the radiator plate to the inside of the mounted wings using the supplied hardware.
8. Tighten all screw joints.

WARRANTY:

Warranty period - 12 Months

WARRANTY TERMS:

The plate should only be installed on a vehicle with undamaged body and load-bearing elements, vehicles which have been involved in a significant collision may prevent successful installation.

Ironman 4x4 does not bear liability for any damages caused to the vehicle, or injury to persons in case of installation or product failure. Ironman 4x4 has a right to introduce changes into the skid plate construction.

The Quality Management System at production has been audited by Bureau Veritas Certification and conforms to requirements of the ISO 9001:2008 standard.
