

**Fitment Instructions****Model: Nissan Navara D40****Underbody Protection Plate****Part Number: IUP007T****Transmission****Years: 2005 -****Engine type: 2.5 dCi, 2.5 dCi (4WD)****APPLICATION:**

Protection of engine bay and transmission elements from damage.
Protection of engine bay and transmission elements from dust and water.

INSTALLATION:

This protection plate has been designed for installation to the intended application only. It should be mounted according to these installation instructions by an experienced Ironman 4x4 dealer or certified fitter. The plate is fixed to original vehicle mountings located on the vehicle's body load-bearing elements. Upon successful installation the plate should not interfere with any other parts or components.

INSTALLATION MANUAL:

1. This plate is installed after installation of engine bay plate.
2. Mount threaded inserts "2" and "3" over apertures of transmission beam.
3. Install front of plate "A" to engine bay plate using the supplied hardware, and the rear to the threaded inserts.
4. Install threaded insert "1" over aperture in fuel tank beam.
5. Mount front of plate "B" with the rear of part "A" together with the mounted inserts, install rear of part "B" with threaded insert "1" using supplied hardware.
6. Tighten all screw joints.

WARRANTY:

Warranty period - 12 Months

WARRANTY TERMS:

The plate should only be installed on a vehicle with undamaged body and load-bearing elements, vehicles which have been involved in a significant collision may prevent successful installation.

Ironman 4x4 does not bear liability for any damages caused to the vehicle, or injury to persons in case of installation or product failure. Ironman 4x4 has a right to introduce changes into the skid plate construction.
