APPLICATION:

Protection of engine bay and transmission elements from damage.
Protection of engine bay and transmission elements from dust and water.

INSTALLATION:

This protection plate has been designed for installation to the intended application only. It should be mounted according to these installation instructions by an experienced Ironman 4x4 dealer or certified fitter. The plate is fixed to original vehicle mountings located on the vehicle's body load-bearing elements. Upon successful installation the plate should not interfere with any other parts or components.

INSTALLATION MANUAL:

1. Position the threaded inserts into subframe's apertures.
2. Align the protection plate to vehicle, and bolt to the threaded inserts.
3. Fix the rear of the plate ensuring the tubes are positioned between the plate and vehicle.
4. Tighten all screw joints.

WARRANTY:

Warranty period - 12 Months

WARRANTY TERMS:

The plate should only be installed on a vehicle with undamaged body and load-bearing elements, vehicles which have been involved in a significant collision may prevent successful installation.

Ironman 4x4 does not bear liability for any damages caused to the vehicle, or injury to persons in case of installation or product failure. Ironman 4x4 has a right to introduce changes into the skid plate construction.
The Quality Management System at production has been audited by Bureau Veritas Certification and conforms to requirements of the ISO 9001:2008 standard.
